And Compliance Branch
New Orleans District

Dear Ms Wiggins,

I have reviewed the information provided for expanding the APE of IER #1, Lake Ponchartrain & Vicinity Hurricane Protection Project. We concur with the finding that no known historic properties will be impacted within the expanded APE by the proposed undertaking. There always remains the possibility that unknown historic properties will be encountered during the course of the construction of this project. If such occurs, all work in the area of the find must stop and my office should be contacted as soon as possible for further consultation about the discovery.
