

# Exotic Vegetation Treatment Area

**Legend**

- Park Boundary
- Potential Treatment Area ~59 acres

Note: Potential treatment area delineated by an approximation of 0.25 and 0.5 foot elevation contours generated from 1999 U.S. Army Corps of Engineers LiDAR data along with the 404(c) easement and encroachment boundaries. Where the easement or encroachment are not the GIWW side boundary, the 0.25 foot contour is. The 0.5 foot contour is the property interior boundary. The basemap is a service of Bing Maps.
