Subject: RE: Request to Continue Consultation, IER #1, Lake Ponchartrain & Vicinity Hurricane Protection Project

Elizabeth Wiggins

Chief, Environmental Planning and Compliance Branch

New Orleans District, USACE

Dear Ms Wiggins,

I have reviewed the information provided for the IER #1, Lake Ponchartrain & Vicinity Hurricane Protection Project. We concur with your finding of No Historic Properties Effectuated for this project.

There, however, always remains the possibility that there are unknown historic properties, especially archaeological sites, present within the construction area. In the event that any archaeological material related to American Indians is encountered in the course of the construction, all work in the vicinity of the discovery must stop immediately. My office should be contacted as soon as possible for further consultation about the discovery and the project.
